

Online Notifications and Applications ('ONA') System

The FSA are implementing a web based system that will allow firms to submit the following applications or notifications online.

- Approved Persons
- Appointed Representatives
- Cancellations
- Variations of Permission
- Waivers
- Passports
- Standing Data

The online process is replacing paper based forms for these applications from September 2010. The FSA is also encouraging firms to use the system in order that firms regularly check the information the FSA hold on the firm, which under SUP 16.10.4 must be done at least annually.

The FSA are encouraging firms to register to use this system in advance of the deadline of October 2010 from when this system will become mandatory. You must register for the system before using it as you will be given log in details that you need to use in the future. These will be separate from any Gabriel log in details.

The following link will take you to the appropriate registration page.
